STANDARD RESIDENTIAL SERVICE

AVAILABILITY:

In all territory served by GRICUA at all points where facilities of adequate capacity and the required phase and suitable voltage are adjacent to the premises served.

APPLICATION:

To electric service supplied at one point of delivery and measured through one meter, for residential service. Electric service to joint residences and commercial facilities, including well pumps over 1.0 HP, must have separate services or be served under the applicable commercial rate. This rate is not applicable to breakdown, standby, supplementary, commercial, or resale service. This rate supersedes all previous residential rates.

TYPE OF SERVICE:

Sixty hertz alternating current, single-phase, 120/240 volts as available within the vicinity of customer's premises.

CONDITIONS:

Customers requiring additional interconnection, metering, or other equipment beyond what is necessary for GRICUA to provide basic service applicable under this schedule will be required to pay GRICUA for the costs of such additional equipment. The type of meter is solely determined by GRICUA based on customer usage and type of service.

MINIMUM BILL:

The greater of:

1. The sum of the Monthly Service Charge, the Energy, Delivery, & System Charge, and the Purchase Power Adjustment Charge; or
2. A minimum monthly dollar amount specified in a written Agreement for Electric Service, if any.
